

of the people on the ground. They cannot regulate based on the safety of people on the craft. That is what this is all about.

We want to develop spacecraft that people can ride on. And if we have the bureaucrats being able to control that, it will put a stranglehold on those people trying to develop these craft. It is fundamentally different than what the FAA has now with airplanes.

And, also, we have heard a total misreading of the bill again and again that there is no right in here for there to be regulation unless there has already been a fatality. That is not the case.

I urge Members to vote for this legislation. Do not strangle this industry and drive these entrepreneurs offshore. Create the jobs here.

GENERAL LEAVE

Mr. BARTON of Texas. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on this legislation.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. BARTON of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to, first of all, commend the gentleman from Michigan (Mr. DINGELL) and the gentleman from Ohio (Mr. BROWN) for helping to expedite this piece of legislation. They could not be on the floor, so we have the distinguished gentleman from Massachusetts who is going to control their floor time, and I want to thank him for his help.

I am reluctantly doing this this evening, not because of the merits of the bill. I support the merits of the bill, but I do not support the procedure under which we are doing this and the reluctance of the other body to find a way to help pay for what we are about to do.

This Congress should be taking serious steps to address our budget problems and our growing Federal debt. The President who just won reelection, 52 percent of the vote, has told America that deficit reduction will be one of his highest priorities, and I would like to have the other body begin to join this body and the President of the United States in making that a reality.

Senate 2618 is a good bill. It will extend for one year additional funding for the Medicare Qualified Individual Program, better known as the QI program. This program will allow approximately 160,000 low-income beneficiaries enrolled in the program to continue to receive assistance to pay for their Medicare part B premium which is optional. That is fair and appropriate.

We began to help subsidize those premium payments back in 1997, so we have been doing it now for the last 7 years. I support that. I think it is appropriate to help our low-income seniors help pay for their Medicare option part B coverage, but I also think we ought to have a way to help pay for that subsidy. This bill does not do that.

I think we need to begin to address the problem of mandatory automatic
